About Dreamzone

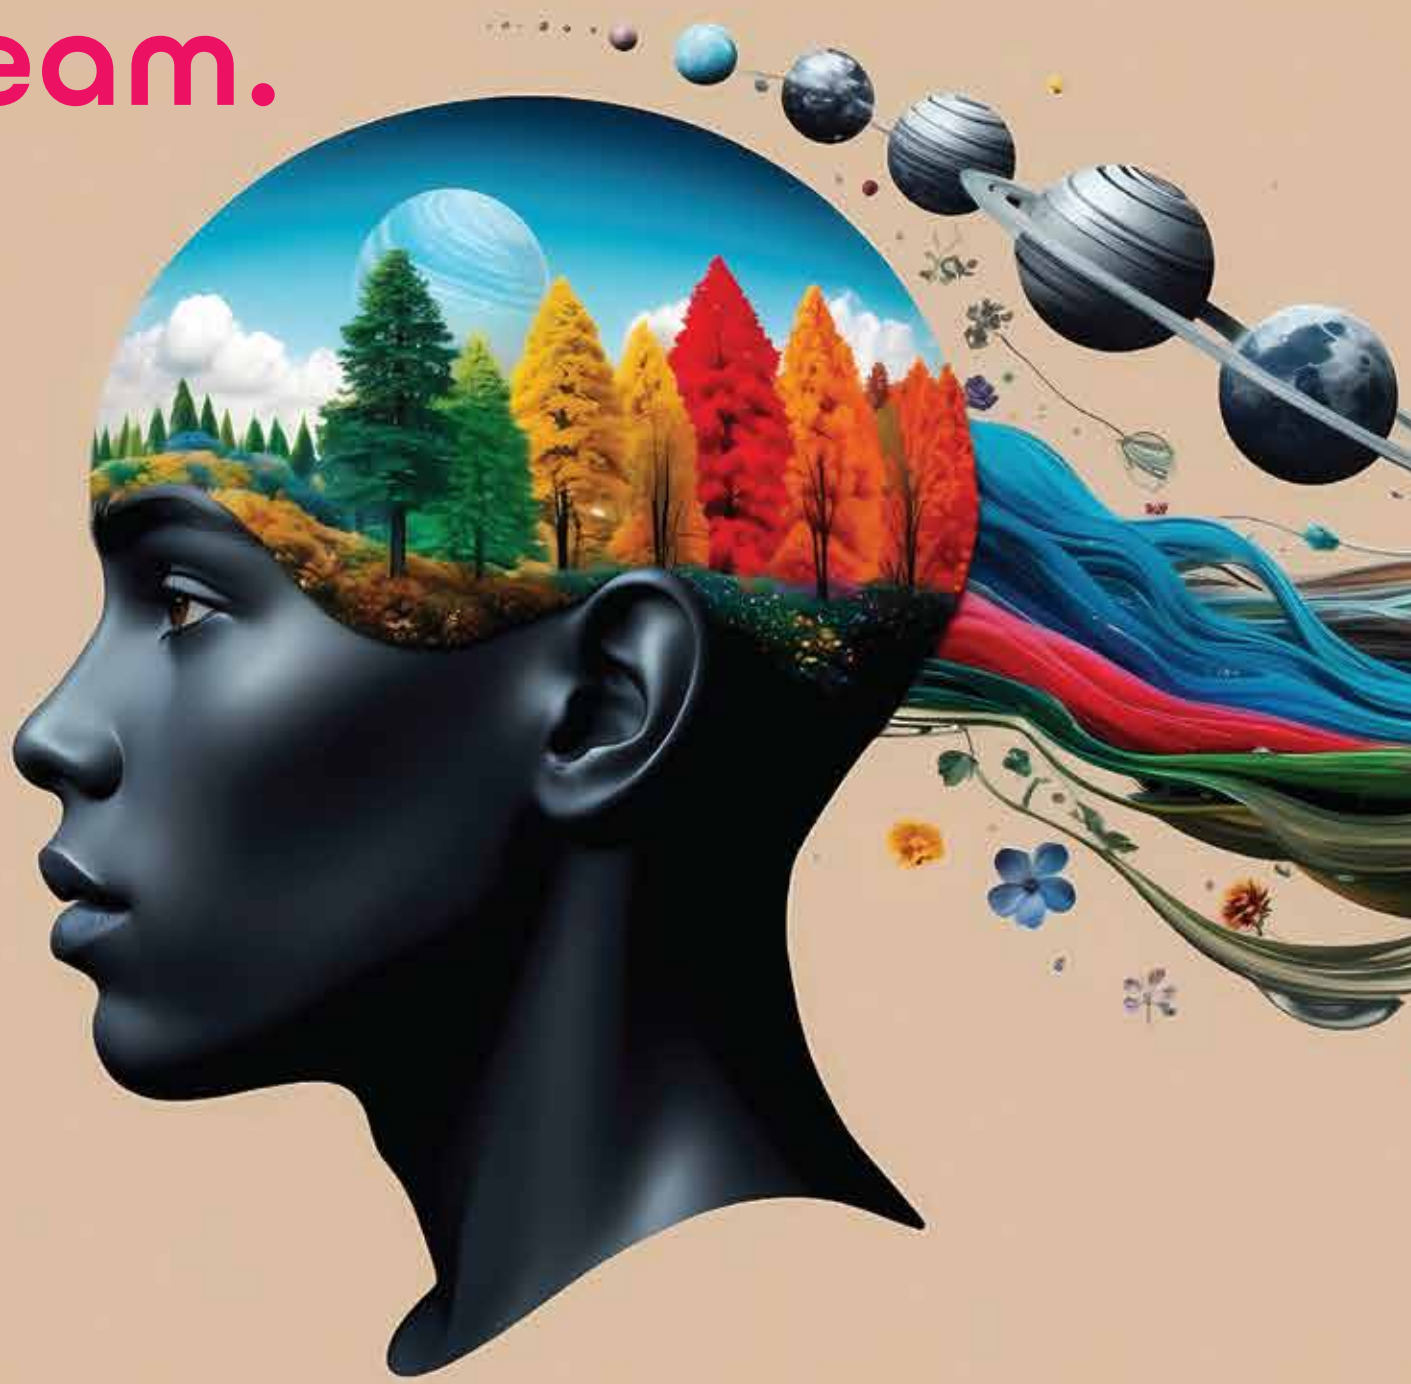

A vibrant, stylized illustration of Super Saiyan Goku and Vegeta from Dragon Ball Z. They are depicted in a dynamic, forward-leaning pose, as if running or fighting through a city street at night. Goku is on the right, wearing his signature orange gi with a blue sash, and Vegeta is on the left, wearing a dark blue gi with a red sash. Both characters have their iconic spiky, golden hair. The background features a detailed cityscape with tall buildings, glowing windows, and a red car parked on the left. A vertical neon sign with the word "HOTEL" is visible on one of the buildings. The overall color palette is dominated by the warm tones of the characters' hair and clothing, contrasting with the cool blues and purples of the night city.

Programs Offered

- ▶ Interior Architecture & Design
- ▶ Fashion Design
- ▶ Animation
- ▶ UI / UX
- ▶ Editing & VFX
- ▶ 2D Graphics

It all begins
with a
dream.

Think creativity is rare? Think again. We are all born with creative potential, waiting to be explored. From storytelling and visual thinking to design, these skills can transform your dreams into reality. At Dreamzone, we help you develop your potential and guide you toward making a successful and fulfilling career.

Transforming Houses into Homes

A house becomes a home when its interior design reflects personal style. With urbanization and rising incomes driving lifestyles, India's construction sector is booming. The demand for residential interior design services is projected to grow at a CAGR of 4.5% from 2024 to 2030, fueled by the need for comfortable and aesthetically pleasing living spaces. As more people spend time indoors, the demand for thoughtfully designed spaces has surged, propelling the interior design services industry into a new era of evolving trends and initiatives.

Dreamzone has been a leader in professional programs in Interior Architecture & Design since 2005. Our curriculum covers design fundamentals, building materials, 3D software, and residential projects. With hands-on experience and industry-relevant skills, we prepare students for successful careers in interior design.

Explore the Thrilling Realm of Graphics and Animation!

Discover the exciting world of graphics and animation, where creativity meets technology. The Indian animation industry is booming, fueled by increased digital content consumption in entertainment, education, and advertising. Advances in animation software and high-performance computing are driving the creation of engaging, high-quality content. With the popularity of streaming platforms, demand for animated films, series, and advertisements is on the rise. By 2030, the animation and graphics sector is expected to reach \$26 billion, creating over 2 million new jobs.

Our specialized courses provide training in essential skills such as colour theory, typography, layout design, sketching, storyboarding, UI/UX, 2D animation, computer-aided 3D animation, modelling, advanced visual effects, and animation rendering. Mastering these techniques will prepare you to engage with a global audience through advertising agencies and businesses.
