Core Assets:

- ✦ World class and up to date curriculum
- ✦ Globally valid certifications.
- ✦ Business Associations with world leaders
- ✦ The certifications equip candidates in competent skills and knowledge.

Journey:

DreamZone started its journey under the shade of CADD Centre- one of Asia's biggest network of CAD training centres. DreamZone laid its seeds back in the year 2005 with an initial thought of "Future is Design" with its three verticals- Graphics and Animation, Interior Design and Fashion Design.

With consistent efforts and hard work, DreamZone became strong enough to spread its wings across India. When Autodesk launched 3ds Max in 1994, DreamZone offered courses for it which were then used in the popular Hindi serial "Junoon". Right from that time, this creative skill development initiative kept adding new and improved softwares and applications to train students.

DreamZone expanded its platform to include skill development programs for Fashion Design and Interior Design along with Multimedia. In the field of Fashion design, our journey continued with software products such as ReachCAD.

DreamZone started its Interior design program in the year 2000 and by 2003, they already had Master Diploma in Interior Architecture & Design. By the year 2005, DreamZone launched their "Garment Design" program and now it has been almost 12 years into the Fashion Design industry. This initiative got its first recognition in the year 2006 and started franchising in the year 2009.
